

KATHMANDU UNIVERSITY SCHOOL OF EDUCATION

MASTER IN SUSTAINABLE DEVELOPMENT MSD

ADMISSION CALL FOR 2020 FALL INTAKE PROGRAM

We are facing problems in the area of natural resources, economy, governance, peace and conflicts, behavior, livelihood and lifestyle. It is becoming difficult to predict where the world would lead in absence of good environment and society. We need to have people and society who can think at different levels, and be a change agent. Sustainable Development (SD) is an emerging tool to develop critical thinkers, taking the environment, society and economy together in a complete harmony. This program is intended to address these challenges together with the culture towards sustainable future.

AIMS OF THE PROGRAM

- Carrying on the purpose held by UN Sustainable Development Goals in line with global community concerns
- Inculcating habits in the scholars to a lifelong learning process
- Training leading professionals for environmentally sound and economically viable and socially informed development
- Creating scholars with citizenry practices with commitment to engage in responsible and cooperative actions
- Developing professionals with creative problem solving skill, scientific and social literacy

GRADUATE ATTRIBUTES

- Ability to keep a track of development, local and global development dynamics
- Ability to critically analyze institutional interest on development agenda
- Ability to take the three Es- Economy, Ecology and Equity together with the people's interest
